

C&E Strategic Pillars

Inform and Equip

Inform members of relevance & importance of industry performance in C&E

Equip members with C&E information, data, approaches & toolkits

Advocate for continued integration of C&E education into tertiary & professional development curricula for mineral professionals

Connect and Activate

Increase AusIMM member participation in C&E via collaborating across AusIMM disciplines, sub-entities, and internal and external groups.

Raise awareness of C&E and drive improved industry outcomes through promoting and distributing leading practice information and tools

Embed and Evolve

Understand membership needs and provide recognition of C&E professional disciplines and achievements within the mining sector.

Provide guidance to continuously improve and champion industry best practice.
